9:50 AM - 10:15 AM

[Buttock Skin Stretch Devices for Enhancing Driving Experience]
*Masashi Konyo (1. Tohoku University (Japan))
Keywords:Haptic feedback, Skin stretch device, Driving Simulator

A new concept of buttock skin stretch to induce the perception of shear forces while sitting is reported. The buttock skin stretch is suitable for a driving simulator to enhance the whole-body experiences such as the centrifugal force of the car and the inclination of the car body in driving.
