

Oral Presentation

[INP4]Haptic Technologies (2)

Special Topics of Interest on Automotive Displays

Chair: Masashi Konyo (Tohoku University)

Co-Chair: Vibol Yem (Tokyo Metropolitan University)

Thu. Nov 28, 2019 5:20 PM - 6:50 PM Room 206 (2F)

6:10 PM - 6:35 PM

[INP4-3(Invited)]Input and Output Interaction Technologies for Flexible Touch Panels

*Ki-Uk Kyung¹ (1. KAIST (Korea))

Keywords:sensor, flexible, actuator, EAP, haptic

This talk will introduce recent technologies for polymer based sensors and actuators. Polymer based tactile sensors support functions of detecting multiple contact forces as well as touch positions. Flexible actuators may provide haptic cues to users.
