[PRJ4]Projection Mapping and Lighting

Chair: Shinsuke Shikama (Setsunan Univ.)

Co-Chair: Petra Aswendt (ViALUX GmbH)

Fri. Nov 29, 2019 9:00 AM - 10:35 AM Room 108 (1F)

10:00 AM - 10:20 AM

[PRJ4-4(Invited)]Industrial DLP Projection Technology

*Petra Aswendt¹, Roland Hoefling¹ (1. ViALUX GmbH (Germany))

This paper provides a view on DLP micro-mirror technology outside of digital cinema and data projectors. It shows that these MEMS offer significant potential when driven by the high-performance industrial control chipset. The principle of operation and the architecture of a hardware/software co-design for an industrial programming environment are described. Selected use cases are highlighted.
