## [U-10\_1AM1]Future of Earth and Planetary Science (6):Relationship between Earth science and government - public

Convener:\*Hiroko Nagahara(Department of Earth and Planetary Science, Graduate School of Science, The University of Tokyo), Toshitaka Tsuda(Research Institute for Sustainable Humanosphere), Shuhei Okubo(Earthquake Research Institute, University of Tokyo), Gaku Kimura(Department of Earth and Planetary Science of the Graduate School of Science, The University of Tokyo), Chair:Toshitaka Tsuda(Research Institute for Sustainable Humanosphere)

Thu. May 1, 2014 9:00 AM - 10:45 AM Main Hall (1F)

Future of Earth and Planetary Science(6) is the Session held jointly by Science Council of Japan and JpGU. The session focuses on how we should be involved in administration such as measures for natural hazard, ocean policy, resource policy, nuclear plant policy, and space policy in which many of us have been strongly involved. Recent complicated international situations of Japan requires us to make more careful consideration on our role. Discussions between researchers and administrators will be important, and therefore, the session will be constructed by invite talks only.
