¹Center for the Promotion of Interdisciplinary Education and Research, Kyoto University

Kyoto University provides the JST education program for laureate high school students with a cross formed by academic curiosity and science "ELCAS" from 2014. In this presentation, we will introduce the coordination, the contents and the current state of the ELCAS program, and the education of Earth sciences. Mainly, we will discuss the contents, the educational effect and a problem of the field work training program for Earth sciences which is being performed by the ELCAS program.
