

On the origin of Martian moons

*Hidenori Genda¹, Ryuki Hyodo^{2,3}, Sebastien Charnoz³, Pascal Rosenblatt⁴

1.Earth-Life Science Institute, Tokyo Institute of Technology, 2.Kobe University, 3.IPGP, 4.Royal Observatory of Belgium

We will review the origin of Martian moons with our recent works. We will also present the science aspects of the MMX mission.

Keywords: sample return, Martian moons, origin
