[JJ] Evening Poster | M (Multidisciplinary and Interdisciplinary) | M-GI General Geosciences, Information Geosciences & Simulations

## [M-GI30]Social media and earth and planetary sciences

convener:Kazuo Amano(Department of Environmental Sciences,Ibaraki University), Takashi Oguchi(Center for Spatial Information Science, The University of Tokyo), Masaki Ito(東京大学生産技術研究所, 共同), Kayoko Yamamoto(University of Electro-Communications)

Sun. May 20, 2018 5:15 PM - 6:30 PM Poster Hall (International Exhibition Hall7, Makuhari Messe)

The utilization of social media for earth and planetary sciences has been developed rapidly in recent years. We would like to call for the papers on case studies, development of methods, reviews, application to environmental problems and disaster prevention/mitigation.

## [MGI30-P04]Effects of Facebook Page utilization for the North-Ibaraki Geopark

\*Kazuo Amano<sup>1</sup>, Jun Hosoi<sup>2</sup> (1.The Institute of Natural Sciences, College of Humanities and Sciences, Nihon Univ., 2.Institute of Geology and Geoinformation, Geological Survey of Japan, AIST)

Keywords:Facebook Page, North Ibaraki Geopark, JGN

We have utilized Facebook Page for the North-Ibaraki Geopark in 2011 &ndash; 2018. The different effects of the utilization of Facebook Page for the North Ibaraki Geopark before and after the revocation of the authorization as a member of the JGN(Japan Geopark Network) in 2017 will be discussed.
