

# Geoscience Education and the Historiography of Geoscience of Katsumi Mochizuki

\*Toshihiro Yamada<sup>1</sup>

1. Research Fellow, Graduate School of Education, University of Tokyo

The geologist Katsumi Mochizuki (1905–1963) wrote some textbooks of geology and mineralogy and published an impressive history of geoscience in Japan. His pedagogical practices and the historiography will be examined.

Keywords: Katsumi Mochizuki, Geoscience education, Historiography of geosciences
