1. Department of Geophysics, Graduate School of Science, Kyoto University, 2. Graduate School of Engineering, Kyushu University, 3. Faculty of Engineering, Nihon University, 4. National Institute of Polar Research, 5. ERI, University of Tokyo, 6. Graduate School of Science, Chiba University

As a part of the research project of "Giant reservoirs of heat/water/material: Global environmental changes driven by Southern Ocean and Antarctic Ice Sheet", we are involved in the research topic of "Interaction of the solid Earth and the Antarctic Ice Sheet". In this presentation, we will report the 2nd year activities of our group.

This study was partially supported by JSPS KAKENHI Grant No. 17H06321.

Keywords: Glacial Isostatic Adjustment, Ice sheet changes, Sea level rise, East Antarctica
