1. Bandai-san Geopark Council, 2. Izu Peninsula Geopark Promotion Council, 3. COM SUPPORT OFFICE

It is not easy for ordinary people and local residents who do not have expertise to image the earth's activities in the geopark - know the importance of geodiversity. In each geopark, local people such as experts and geo guides unravel the phenomena related to the activities of the earth and the relationship between people and the earth, communicate their enjoyment and importance to the general public through guided tours and activities There.

NHK Blatamori introduces to the tea room that it is close to activities that this geopark region is practicing. This program is a program of the concept that Mr. Tamori of the guru walking master approaches the history of the unknown city and the lives of people while walking around the globe.
