

# Request and proposal from the Committee on Earth and Planetary Sciences of the Science Council of Japan to JpGU

\*Ryoichi Fujii<sup>1</sup>

## 1. Research Organization of Information and Systems

Japan Geoscience Union (JpGU) and the Committee on Earth and Planetary Sciences (EPS) of the Science Council of Japan (SCJ) has long been collaborating closely for the wide developments of earth and planetary sciences. Recent collaborations are being done, e.g., for the revision of the dream roadmap and the proposal of the large-scale research programs.

In this presentation we would like to present our request and proposal to JpGU and to discuss in depth the future, closer collaborations between the two organizations.

Keywords: JpGU, Dream roadmap, Science Council of Japan
