
Symposium (Oral) | Symposium (non-technical) | NT1 Applied physics and Sensibility

[20p-E308-1~8]NT1 Applied physics and Sensibility

Kenichi Takeda(Hitachi Ltd,), Yoshihiro Uozu(Mitsubishi Chemical)

Fri. Sep 20, 2019 1:30 PM - 5:20 PM E308 (E308)

△ : Presentation by Applicant for JSAP Young Scientists Presentation Award

▲ : English Presentation

▼ : Both of Above

No Mark : None of Above

1:30 PM - 1:40 PM

[20p-E308-1]Purpos of this symposium

○Masayuki Naya¹ (1.FUJIFILM)

Keywords:sensitivity, comfort, joy

The creation of “comfort”, “joy”, “inspiration” and so on through science and technology has become a time that leads to major innovation. In this field, the role of applied physics is becoming increasingly important.

In this symposium, reserchers who are engaged in development to connect cutting-edge science and technology with human sensitivities in various fields will introduce their research.
