

## Development and publishing of the Seamless Geological Map of Japan (Chiriinchizu edition, tentative name)

NISHIOKA, Yoshiharu<sup>1\*</sup> ; NAGATSU, Juri<sup>1</sup> ; KITAO, Kaoru<sup>2</sup>

<sup>1</sup>Institute of Geology and Geoinformation, AIST, <sup>2</sup>CubeWorks Inc.

We developed a next viewer of the Seamless Geological Map of Japan 1:200,000 with rewriting a cord completely.

This viewer adopts the Chiriinchizu as a base map.

This viewer, and also, the most high technique everywhere, for example 'Portable map', it's applied.

We are going to publish this viewer in May of this year.

Keywords: Seamless Geological Map, Leaflet.js, Chriin tile, portable map, Web site
